

QOpenGLWidget

QOpenGLFunctions

VentanaDeGraficacion

```
graph BT; VentanaDeGraficacion --> QOpenGLWidget; VentanaDeGraficacion --> QOpenGLFunctions;
```

The diagram illustrates a class hierarchy where 'VentanaDeGraficacion' is the base class. Two arrows originate from the bottom of the 'VentanaDeGraficacion' box and point upwards to the bottom of the 'QOpenGLWidget' and 'QOpenGLFunctions' boxes, indicating that both derived classes inherit from the base class.
